INNOVATIVE EDUCATION MADE ACCESSIBLE

Our Partner

About us

Teachze is dedicated to transforming schools into centres of excellence through our innovative products and services. Our passion for education drives us to collaborate with schools and institutes, providing them with the tools they need to thrive in the digital age. We understand that each institution is unique, and we tailor our solutions to meet their individual needs and goals.

Our comprehensive range of products and services is designed to elevate educational standards and inspire exceptional academic outcomes. From state-of-the-art digital campus solutions to cutting-edge teaching tools, Teachze is committed to enriching the learning experience for students and educators alike.

At Teachze, we believe that a strong foundation in education is key to unlocking every institution's potential. Our team of experienced professionals works hand-in-hand with schools and institutes to ensure seamless integration of our solutions, helping them navigate the challenges of the modern educational landscape. Join us in our mission to create schools of excellence and discover how Teachze can empower your institution to achieve greatness. Together, let's shape the future of education and inspire the leaders of tomorrow.

PROMISE

Bringing an enriching learning experience to the education landscape.

We put the ‘Tech’ in ‘Teach’.

From students, to teachers, Teachze’s promise is to bring an innovative touch of quality & excellence to academic standards. Providing a digitally-enabled learning experience to schools & institutes that do not possess the infrastructure to uphold tech-first education.

Vision

Learning: The access key to a successful future

Quality learning is at our core, but access to quality education is Teachze’s heart. Teachze being a digital learning platform wants to ensure that it enables a large majority of learners access to quality learning.

Mission

Bolting towards tech-enabled education excellence

Teachze aims at enhancing the standard of education in india through technology. A step-by-step process that includes not only the physical presence of technology, but also behavioural development in teachers, students and parents.

At Teachze, we truly understand that technology is a daily learning experience and combined with the education system, it enhances the learning experience and concurrently creates a superior standard of learning and understanding.

Our team

DINESH KUMAR

CEO

EDUCATION FOR ALL.
This is the mission that drives Dinesh Kumar. As a Silicon Valley professional and USC alumni with over ten years experience working for companies like NVIDIA, HP, and various other start-ups, he possesses the necessary expertise to build a competitive yet enriching learning platform. He is passionate about technology and is particularly invested in using it to solve the genuine issues we face in the world today.

VYSHNAVI

COO

Vysh, is an alumna of the Academy of Arts, San Francisco, and has experience working for a Fortune 100 company. She has a passion for product design and wants to use her creative abilities in the field of education. She has a keen eye for detail and has won awards for her designs. She has established a strong track record in conceptualizing innovative product designs and loves to experiment with creative processes.

JOSHI KUMAR

CTO

A technological geek at heart, Joshi is an alumnus of the National University of Singapore. He knew where his heart lies and pursued his career in the technology industry. Now he has over 10 years of experience working for Fortune 500 companies. He puts his creative best forward when finding solutions to problems and believes that technology is no less than magic if you explore enough.

Institutional Management System

An Infinite Solution

TIMETABLE

Automatic timetable generation feature simplifies the scheduling process for institutions for timetable generation, optimization, and customization, ensuring efficient use of resources and reducing administrative work.

ANALYTICAL REPORTING

With advanced analytics and data visualization tools to track and analyze performance data enabling informed decision-making and continuous improvement.

USERS

With advance tools to manage student and staff information, including profiles, attendance, performance and disciplinary actions, streamlining administrative tasks and enhancing overall operations.

EXAM MANAGEMENT

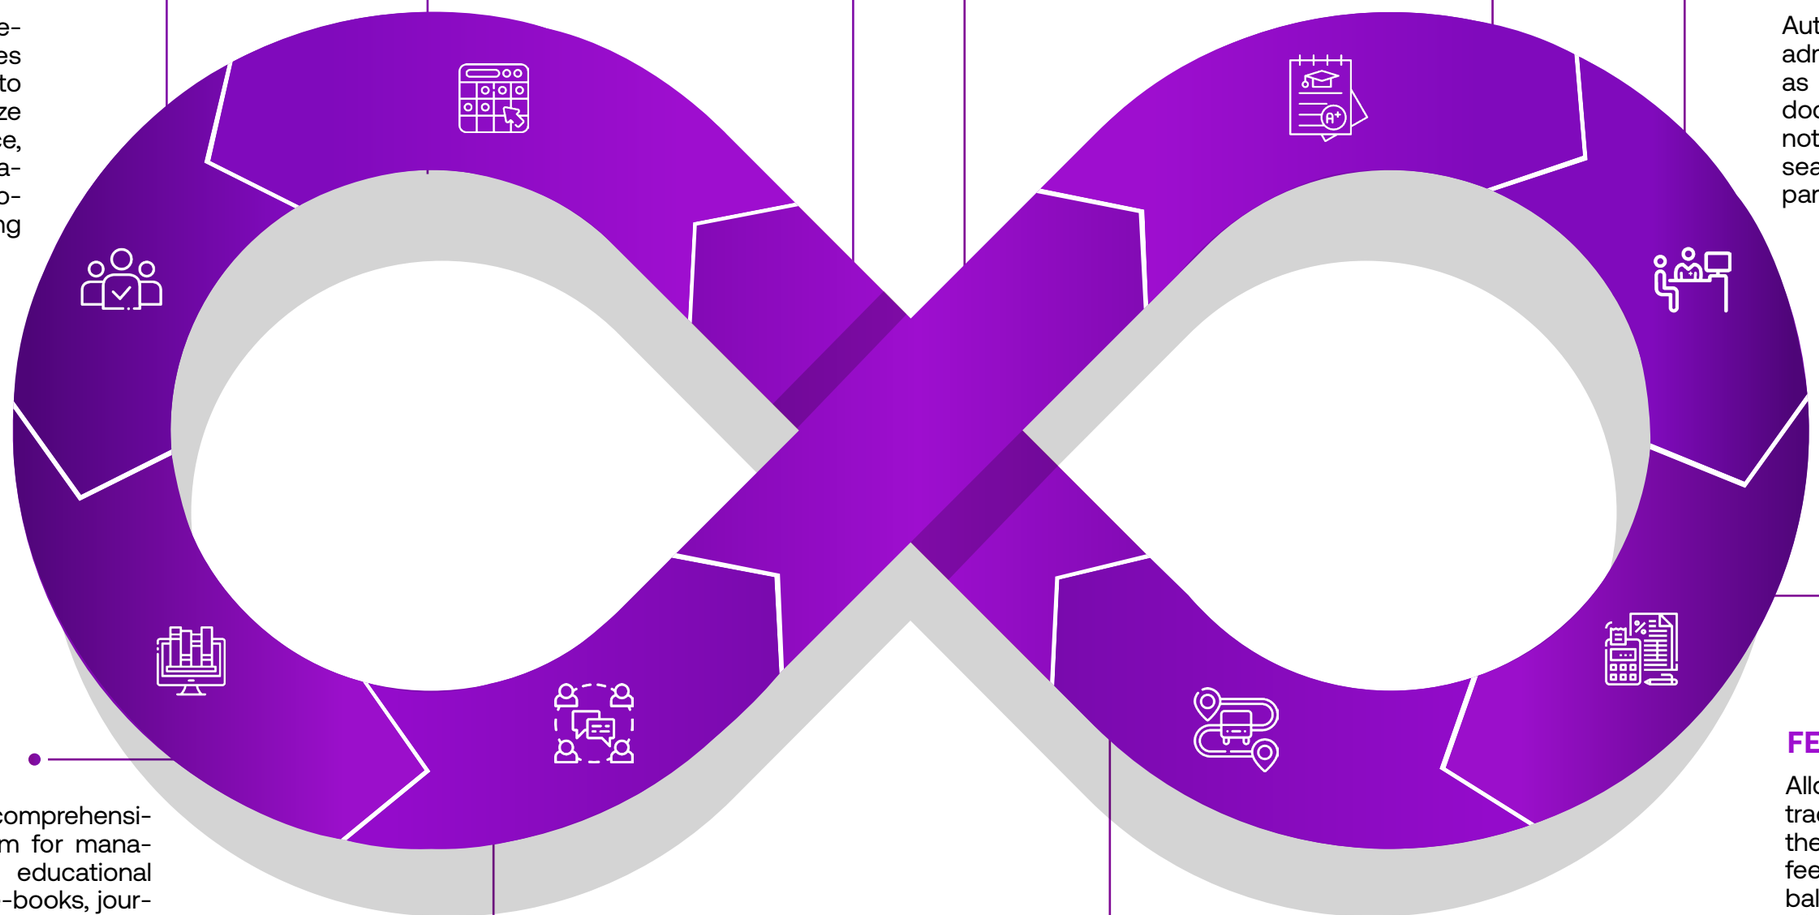
Provides solution for managing the entire exam process including test creation, grading, reporting and proctoring. Ensuring fair and efficient assessment and evaluation of student performance.

ATTENDANCE

Attendance management system provides institutions with tools to easily track and analyze student attendance, including real-time updates, reporting, and automated alerts, improving accountability.

ADMISSION

Automated and paperless admission with features such as online application form, document verification and notifications ensuring a seamless experience for parents and administrators.



DIGITAL LIBRARY

Digital library allows comprehensive access to platform for managing and sharing educational resources including e-books, journals and multimedia content enhancing the learning experience and supporting student success.

COMMUNICATION

Heycampus ensures effortless communication with students, staff and parents, with features such as notifications, messaging and forums, improving engagement, collaboration and transparency within the school community.

TRANSPORT SYSTEM

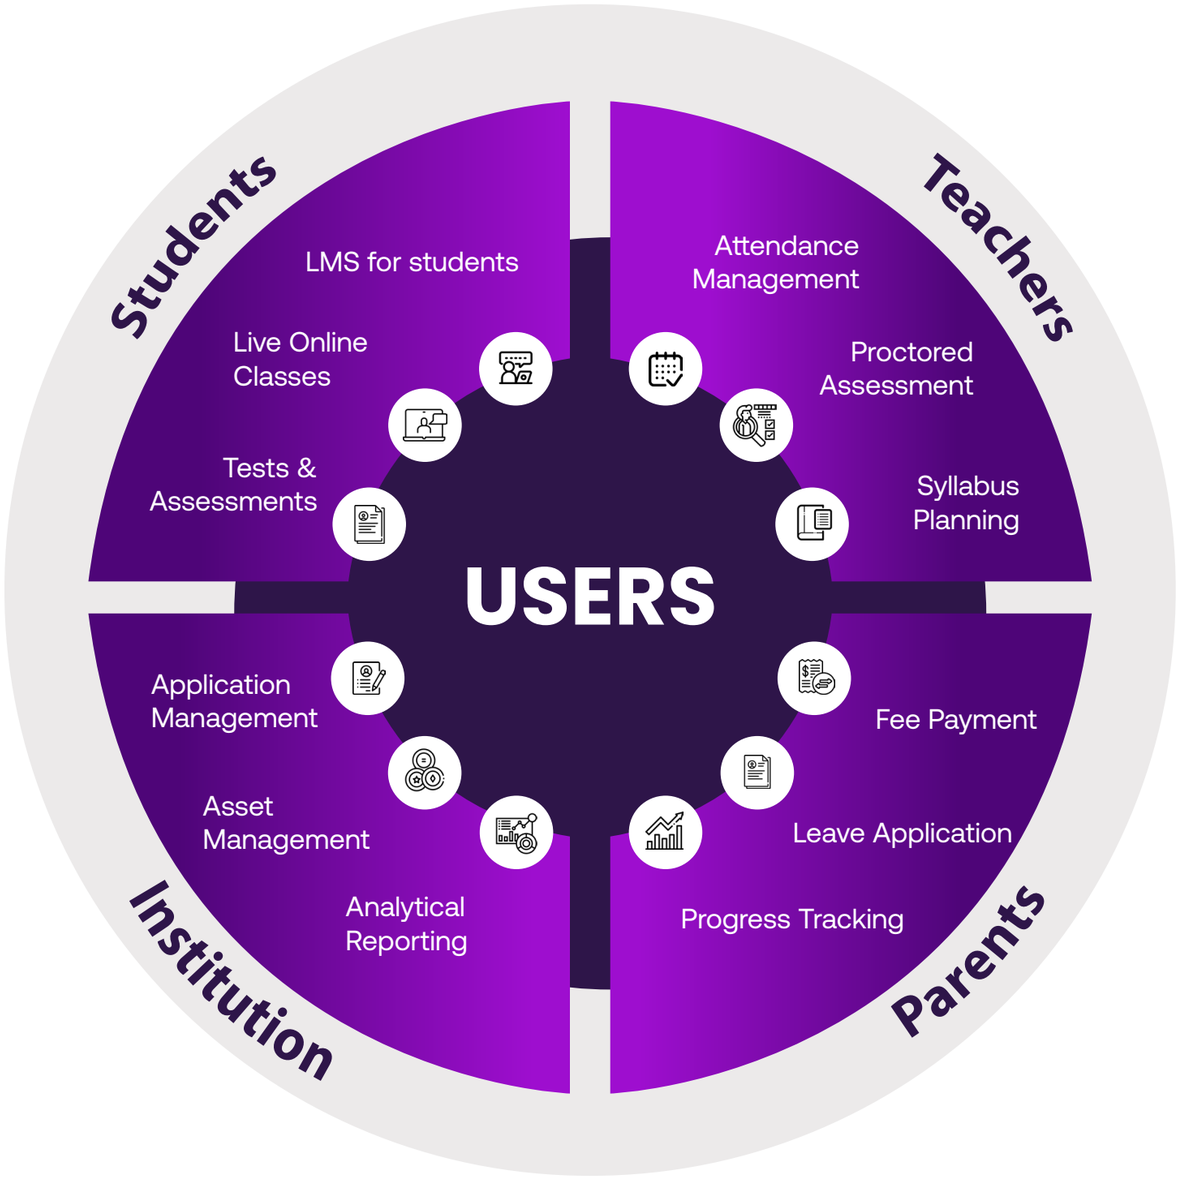
Enables users to manage their transport operations, including vehicle tracking, route planning and driver management, ensuring safety and better student transportation experience.

FEE MANAGEMENT

Allows management to easily track, manage and analyze their financial data, including fee collection, outstanding balances and payment reconciliation, providing real-time insights for better decision making.

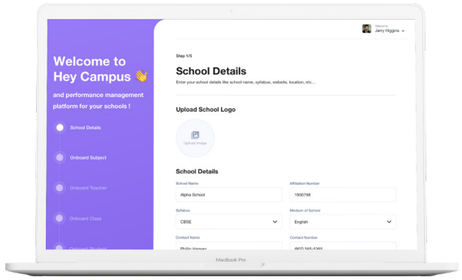
ERP for everyone

Our users are at the center of our operations. We strive to provide our clients with intuitive ERP solutions that meet their unique needs and requirements. Our platform is designed to cater to the needs of various stakeholders in the education sector including students, parents, faculty members and administrative staff.



Features

White Labelling

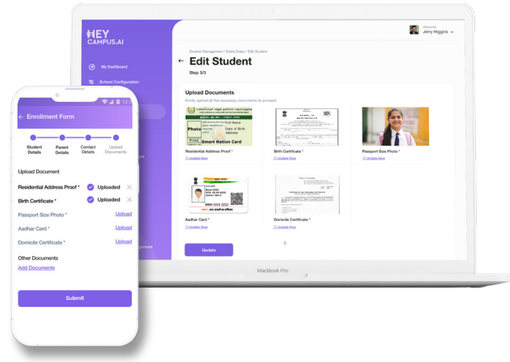


Custom school app allows educational insitutions to brand their own mobile app for enhanced engagement and communication.

- Personalised app design
- Multi-platform compatibilty
- School-branded messaging and notifications
- Integration with other Heycampus features

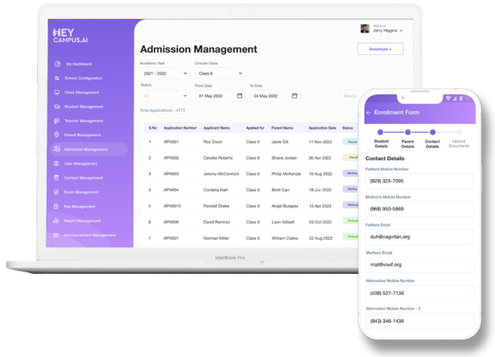
NEP 2023

As per NEP 2023, We have enabled features that can transform educational system and prepare students for the future.



- Digilocker integration
- Academic credits maintenance
- Digital Library
- Digital Contents integrations

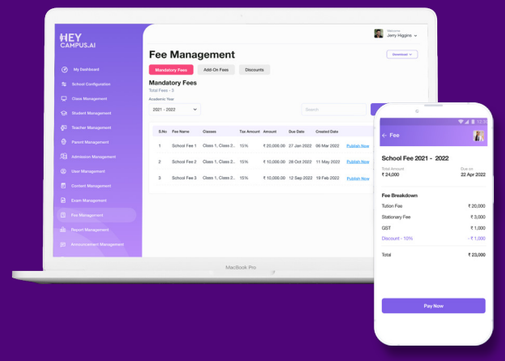
Admission Management



Automated admission management service simplifies the application and enrollment process to manage student information and admissions data easily.

- Paperless Admissions
- Document Verification
- Application Status Tracking
- Customizable Flow

Fee Management



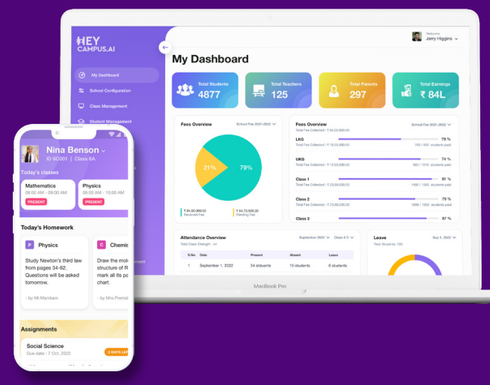
Management can create multiple fee structure and allocate them to user across all modules, which enables accessibility to users. Fees can be collected online and transactions can be auto-mated. Administrators can send instant alert to users

- Constant Fee report update
- Online fee payment
- Fee receipts
- Customizable fee structure

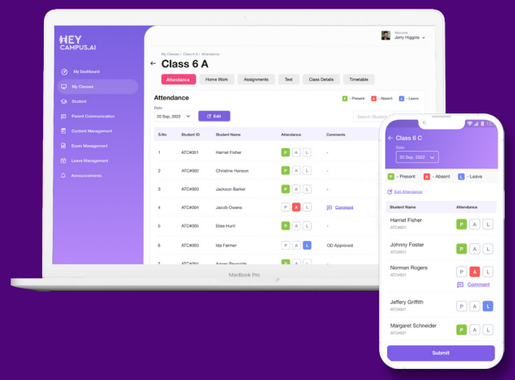
Learning Management System

Comprehensive learning management system for schools that centralizes academic content, course materials, and student performance data. It streamlines the education process, making it easier for educators to create and deliver content and for students to access and learn from it.

- Customizable and user-friendly interface
- Course creation and management tools
- In-depth student analytics and reporting
- Integration with third-party tools and services



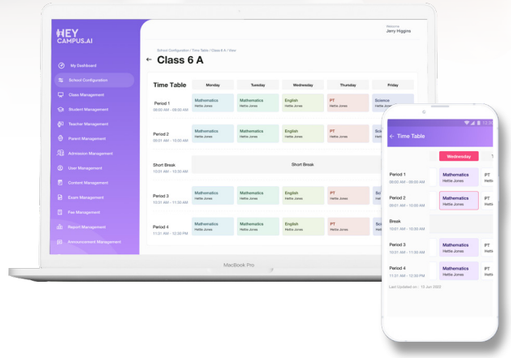
Attendance Management



Schools can monitor and track student, faculty and staff attendance with ease and accuracy. It helps schools identify and address any attendance issues, improve student engagement, and ensure that students are meeting their academic requirements.

- Automated attendance tracking using facial recognition
- Customizable attendance rules and settings
- Real-time attendance data and analytics
- Integration with scheduling and grading systems

Timetable Management



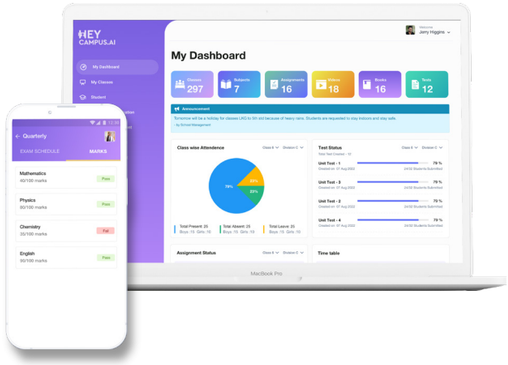
Automated timetable management feature for schools that simplifies scheduling of classes, resources, and faculty, minimizing conflicts and maximizing classroom utilization. It ensures students have access to necessary courses and resources for academic success.

- Customizable scheduling tools and settings
- Integration with student and faculty schedules
- Real-time timetable updates and notifications
- Reporting and analytics on class utilization and availability

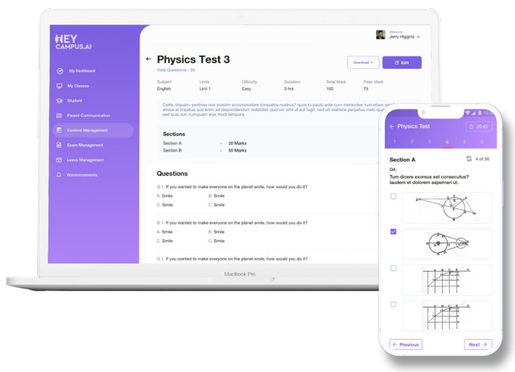
Analytical Reporting

Constant analytical reporting makes data-driven decisions, identifies trends and patterns, and improves performance and outcomes by gaining valuable insights into their operations and student performance.

- Admission report
- Performance report
- Financial Report
- Attendance Report



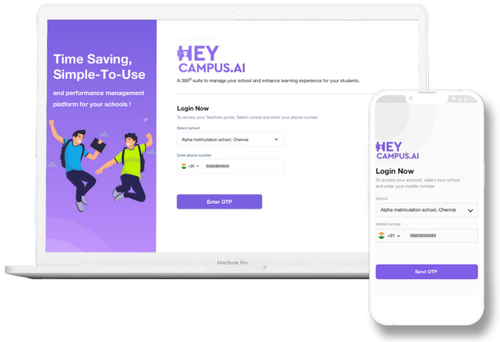
Proctored Assessment



Secure proctored assessment feature that facili-tates secure exams and assessments for schools, ensuring academic integrity and preventing cheating in online assessments. This gives schools assurance that students are earn-ing their grades honestly.

- AI-powered proctoring technology
- Customizable proctoring settings and rules
- Detailed exam reports and analytics
- Secure and encrypted exam delivery platform

User Friendly Interface



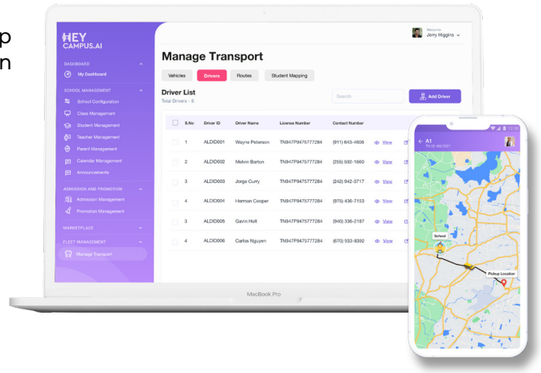
Smart user-friendly interface that makes it easy for both students and faculty to navigate and use the platform. This improves user satisfaction, reduces support requests, and increases adoption and usage of Heycampus by the institutions community.

- Simple and intuitive navigation and design
- Customizable user preferences and settings
- Accessibility features for users with disabilities
- Acute Widges

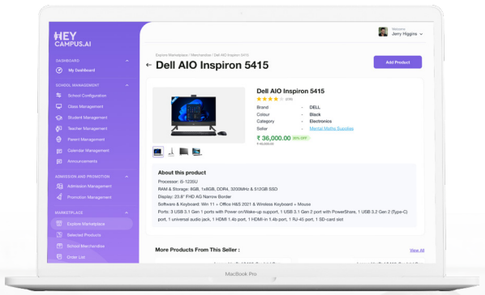
Transportation System

Inteligent transportation system provides a one-stop solution to manage and track schools transportation resources, including vehicles, drivers, and routes.

- Live GPS Tracking
- Document maintenance
- Routing recommendation
- Driver Application



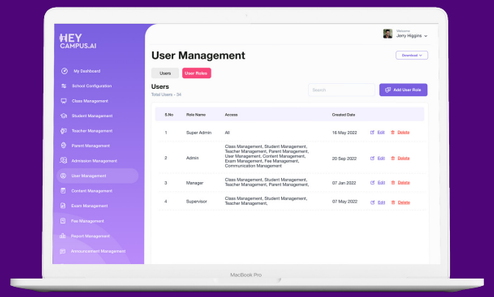
Hardware Integration



Our hardware solutions aims to help institutions digitalize their classrooms and make the teaching process more interactive and engaging for students. We offer a range of hardware options, including:

- Interactive Digital Boards
- Audio Visual Equipments
- Biometric Systems
- Internet connectivity

HRMS



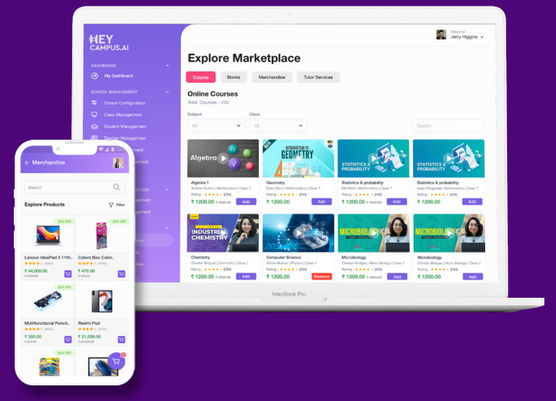
HRMS helps schools manage human resources efficiently. Modules include employee information, attendance, payroll, and performance management. These streamline HR processes, reduce admin burden, and improve efficiency, allowing faculty and staff to focus on education delivery.

- Secure self-service access
- Centralized hiring management
- Effective employee development
- Data-driven insights

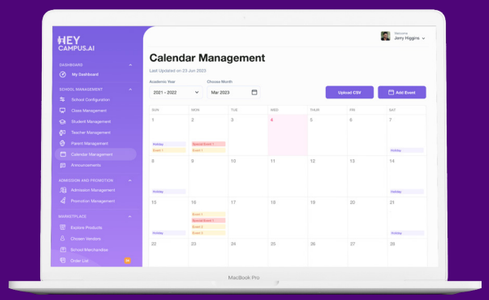
Marketplace

Marketplace operates to manage various education products and courses, including inventory management, order processing, payment processing, and financial management.

- Digital academic content - both prescribed & academic
- Product recommendation Engine
- Products visibility based on management approval
- Special price for intitution and students



Calendar



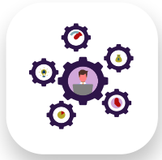
Calendar captures academic event details. It also makes sure that all stake holders are notified. Personalised events for teachers, students and admin users.

- Event scheduling
- Academic year planning
- Event Notifications
- Auto sync across devices

Why Hey Campus?

1. Improved Financial Performance

With real-time financial data and analytics, an ERP system can help the institution make better-informed budgeting and financial planning decisions, leading to improved financial performance and increased cost savings.

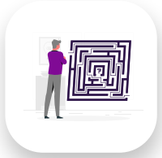


2. Increased Operational Efficiency

By automating processes and streamlining workflows, an ERP system can reduce the time and resources required for manual tasks and administrative processes, freeing up the physical staff to focus on more important tasks and improving overall operational efficiency.

3. Increased security and privacy

With secure data storage and access controls, ERP systems can help schools maintain the privacy and security of sensitive student and school information.

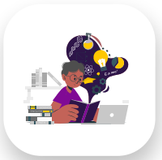


4. Better decision-making

With access to real-time data and analytics, the institution can make informed decisions based on accurate, up-to-date information, leading to improved academic and financial performance.

5. Improved Resource Allocation

With real-time data on student performance and resource utilisation, the institution will be able to allocate resources more effectively, leading to improved student outcomes and better use of school resources.



6. Increased Student Engagement

By providing students with access to their academic records, schedules, and other important information, the school can increase student engagement and investment in their education, leading to improved academic performance and outcomes.

Plans

We offer flexible options to suit the needs of institutions of all sizes. Choose from our plans based your requirements. All plans include reliable customer support to ensure a seamless integration into your classroom.
